

2016 National Pediatric Subspecialty Provider Compensation Survey Informational Session

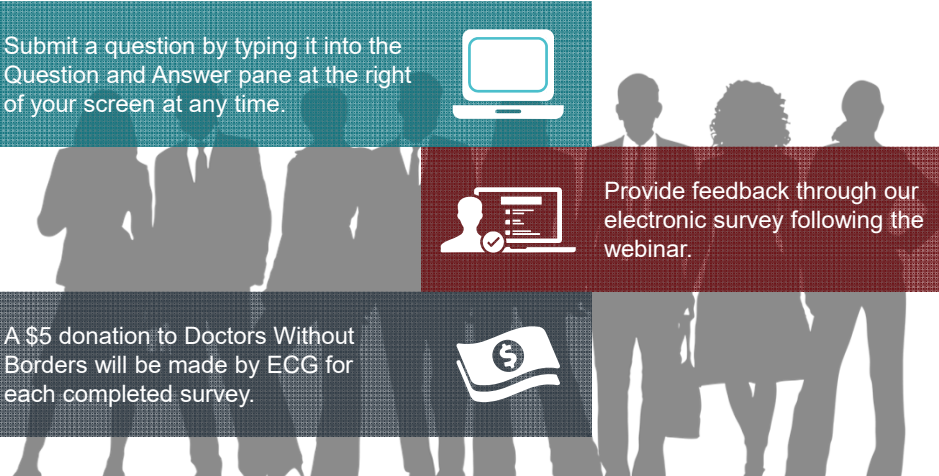

Presented by:
Angie Collins, Manager, ECG Management Consultants
Shelley Mank, Financial Analyst, ECG Management Consultants

January 13, 2016

Audience Reminders

Submit a question by typing it into the Question and Answer pane at the right of your screen at any time.

Provide feedback through our electronic survey following the webinar.

A \$5 donation to Doctors Without Borders will be made by ECG for each completed survey.

I. Introduction

ECG's Custom Surveys

ECG's custom surveys emerged from our experience in working with medical groups and academic departments to redesign their compensation plans. Today, our custom surveys are one of our core services and encompass a wide range of areas.

- » *National Provider Compensation Survey* (seventeenth year)
- » *National Pediatric Subspecialty Provider Compensation Survey* (tenth year)
- » CPT Code Profiler tool (fourth year)
- » *National Medical Group Cost and Staffing Survey* (third year)
- » Various other surveys

6

I. Introduction

Providing Critical Data

Survey members utilize data and benchmarks from our surveys to inform themselves on key issues and support various analyses in their organizations, including:

- » Annual market assessments of compensation and production for physicians and advanced practice clinicians (APCs).
- » Compensation plan redesign for physicians and APCs.
- » Operations improvement projects that include productivity evaluation and benchmarking at both the individual provider and specialty levels.
- » Audits and market comparisons of coding practices (individual provider and specialty levels).
- » Fair market value assessments and opinions.
- » Provider benefit benchmarking and design.
- » Market payor contracting strategies.
- » Recruiting and retention benchmarking.

Our surveys provide members with access to data that is more in-depth than what is offered by, or not available from, other industry sources.

7

I. Introduction

Survey Growth and Retention

With compensation and production data from 7,293 pediatric providers and organization-level data from 48 of the nation's premier children's organizations, ECG's National Pediatric Subspecialty Provider Compensation Survey is the most comprehensive source of provider performance data available in the market.

Source: ECG 2006 to 2015 pediatric surveys.
NOTE: This survey was not conducted in 2007.

The pediatric survey has a loyal base of members from year to year, with an average retention rate of between 75% and 80%. The typical organization has been a member of the pediatric survey for 4 years.

8

I. Introduction

Survey Members by Location

The pediatric survey has expanded to reach 37 states, with solid representation from each region.

Providers by Region

Source: ECG 2008 to 2015 pediatric surveys.

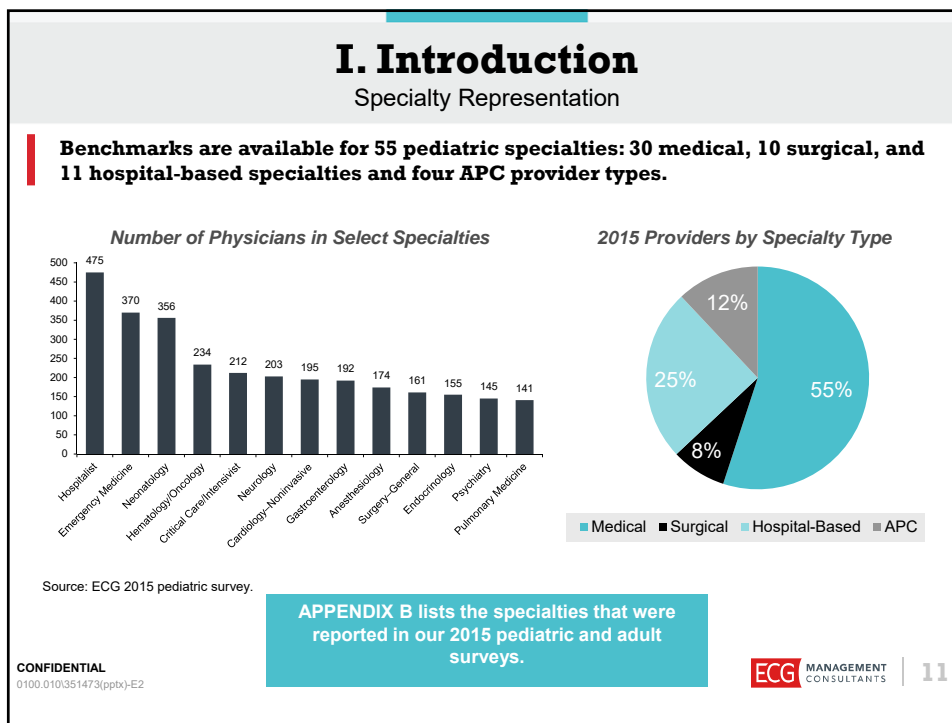

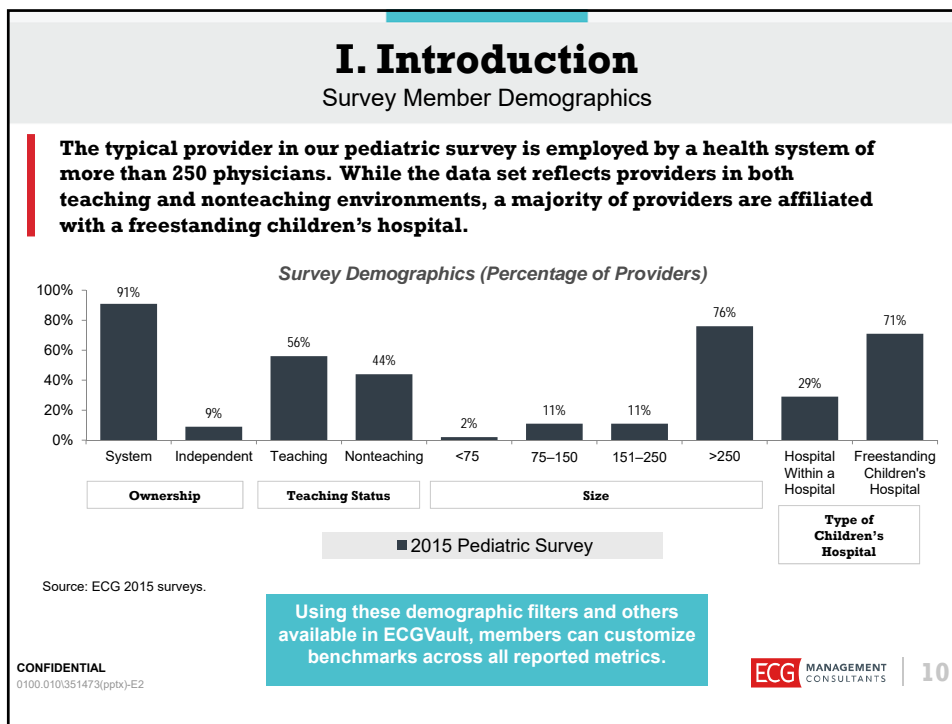

¹ In addition to the pediatric survey, ECG conducts the adult National Provider Compensation Survey, which this year includes data for nearly 25,000 providers.

APPENDIX A contains a comprehensive member list for both of our 2015 pediatric and adult provider compensation surveys.

13

II. Survey Overview

Scope of the Survey

ECG's survey is a comprehensive study of provider performance and captures data in six schedules, which include participant demographics as well as compensation, benefits, productivity, recruitment, and other critical operating statistics.

SCHEDULE A	Contact Information — Includes authorized contacts
SCHEDULE B	Organization Profile — Includes organization-level demographics, revenue/expense data, contracting and reimbursement data, IT systems overview, etc.
SCHEDULE C	Compensation/Incentive Plans — Includes data on physician and APC compensation plan structure, performance indicators (production- and nonproduction-based), and quality incentives
SCHEDULE D	Recruiting and Benefits — Includes data on recruiting packages/benefits, starting salaries, recruiting efforts, and cost/type of provider benefits (e.g., medical, retirement, paid time off [PTO], CME)
SCHEDULE E	Operations — Includes the utilization and practice models of APCs as well as patient access information
SCHEDULE F	Provider Data — Includes provider-level data (physicians and APCs), such as FTEs, compensation, gross and net revenue, academic rank, panel size, CPT code counts, benefits, clinical weeks worked, scheduled office hours, etc.

Schedules A–E are completed via our secure web-based proprietary survey tool. Schedule F is completed using Microsoft Excel.

II. Survey Overview

Reported Metrics and Key Statistics

ECGVault provides access to the comprehensive collection of metrics available in the survey.

SELECT COMPENSATION, PRODUCTION, AND BENEFIT METRICS BY SPECIALTY

- » Total compensation normalized for full-time effort (base/guaranteed, and call coverage compensation are also available)
- » Nonproduction compensation per clinical FTE, including quality and patient satisfaction earnings
- » Total gross and gross professional revenue per clinical FTE
- » Net collections and net professional collections per clinical FTE
- » Work RVUs (WRVUs) and total RVUs (TRVUs) per clinical FTE
- » Compensation as a percentage of production (gross, gross professional, net, and net professional revenue)
- » Compensation per WRVU and TRVU
- » Gross professional revenue per TRVU
- » Net collections and net professional collections per TRVU and WRVU
- » Panel size per clinical FTE (primary care)
- » Benefit cost per provider and as a percentage of total compensation
- » Retirement cost per provider and as a percentage of total compensation
- » Scheduled office-based hours per week

SELECT COMPENSATION PLAN, RECRUITMENT, AND OTHER KEY INFORMATION/STATISTICS

- » Compensation plan structure by provider type (primary care physicians, surgical specialists, APCs, etc.)
- » Performance indicators in compensation plans by provider type
- » Quality incentives in compensation plans by provider type
- » Physician recruiting offerings, including length of service requirements and value of benefit
- » Starting salary offers and signing bonuses by specialty
- » Top-recruited specialties and range of difficulty in filling open positions
- » Benefits offered and cost and benefits for health insurance, life insurance, disability insurance, and retirement plans
- » PTO benefits and CME allowances
- » Appointment wait times by specialty
- » APC utilization and recruitment data
- » Contracting and reimbursement data, including information on ACOs and other payment models

II. Survey Overview

Exclusive Member Benefits

As members of ECG's survey, organizations have exclusive access to:

- » **ECGVault** — This data portal contains current and historical ECG physician and APC performance benchmarks at the market, organization, and provider levels.
- » **Final Report** — This document summarizes key year-over-year market trends for all components of the survey.
- » **Members-Only Webinar** — Hosted in the fall, this webinar focuses on key compensation, production, recruiting, and benefit trends of the 2016 survey.
- » **ECG's Survey Team** — Through the survey process, we cultivate a relationship with each of our members. By taking the time to interact with our members, we ensure that we understand your organization and data, which translates into the most accurate and reliable benchmarks available in the industry.

ECG's survey approach, methodology, and value-added deliverables set us apart from other industry surveys.

III. ECGVault Overview

Background

ECGVault provides survey members with the power to analyze current and historical physician and APC performance benchmarks at the market, organization, and provider levels.

- » ECGVault is a business intelligence tool that supports a variety of provider performance analyses and assessments in your organization.
 - › Online and secure
 - › Members only
 - › Current and historical data (back to 2006)
- » Survey members' data is already loaded into the database and reports.
- » Data includes provider-level compensation and production data, as well as organization-level statistics and information.
- » Reporting options allow for significant customization by members.

Survey members receive a confidential login and password specific to the organization.

18

III. ECGVault Overview

Your Business Intelligence Center

ECGVault contains three primary types of reporting options:

- » **Dynamic Reports** — These reports allow for robust, specialty-specific trending and analysis capabilities, as well as standard and custom reporting, downloading of benchmarks, and access to related materials.
- » **Static Reports** — These reports include the benchmark tables for physicians and APCs in Adobe PDF format. The benchmark tables provide averages and quartiles by specialty for each of the compensation and production metrics in ECG's surveys.
- » **Organization Statistics Module** — In addition to the organization data provided in ECG's Final Report, comprehensive market data is available via our Organization Statistics Module.

ECGVault now includes the Pediatric CPT Code Profiler, an additional product that members can subscribe to.

19

III. ECGVault Overview

ECGVault: Dynamic Reports

There are currently 10 reporting options in ECGVault's Dynamic Reports that allow survey members to access current-year and historical physician performance benchmarks for the organization and the market.

- » Benchmark Tables
- » Custom Recruiting Tool
- » Metric Scattergram
- » Tabular Reports
- » Trending by Organization
- » Trending by Provider
- » Benchmarking by Organization
- » Benchmarking by Provider
- » Comparison Charts by Organization
- » Comparison Charts by Provider

ECG is currently conducting customized ECGVault demonstrations for any interested organization.

III. ECGVault Overview

Pediatric CPT Code Profiler

The Pediatric CPT Code Profiler transforms provider-level CPT code data into meaningful information and analytics on practice profiles, top-performed CPT codes, and the distribution of evaluation and management (E&M) codes.

- » **Specialty Practice Profile Summary Reports** — Identify variances in your physicians' CPT code profiles compared to providers within your medical group and the market; key metrics include a summary of WRVU and TRVU productivity, the distribution of WRVUs among CPT code categories (i.e., E&M, medicine, ancillary, and surgery) and subcategories, and the average acuity of procedures
- » **Provider CPT Code Frequency Reports** — Include reports for your providers, specialty, group of providers, and the market; data sets can be customized by procedure category and subcategory, place of service, inpatient/outpatient provider responsibilities, medical group demographics, and several other key practice differentiators; CPT code reports include procedure code ranking of frequency for market variance comparisons
- » **Provider CPT Code E&M Distribution Reports by Specialty** — Include the isolation of E&M frequency for place of service, as well as provider and organization demographics

The Pediatric CPT Code Profiler is available to pediatric compensation survey members at a discounted fee of \$5,000. Sample reports are shown in APPENDIX C.

Next Steps

We look forward to working with you during ECG's 2016 pediatric survey.

- » **Register** — Register your organization for ECG's 2016 National Pediatric Subspecialty Provider Compensation Survey.
- » **Receive Welcome and Survey Materials** — The 2016 survey materials will be distributed via email at the end of January to registered organizations.
- » **Submit Data** — Completed survey materials/data are due on March 11.
- » **Access Available Support** — We work with each organization during the submission process and are available to answer any questions that may arise as you complete the survey.

MORE QUESTIONS

Please contact Angie Collins at 314-726-2323 or acollins@ecgmc.com.

Appendix C

Sample Pediatric CPT Code Profiler Reports — Report Criteria

CPT code reports can be customized using various report criteria to further enhance your analysis.

ORGANIZATION-LEVEL REPORT CRITERIA

- » **Organization Size** — Pulls data for providers who practice within groups of various sizes
- » **Ownership** — Selects providers who practice within integrated health systems, providers who practice within independent medical groups, or all providers
- » **Region** — Limits data to providers who are practicing within a specific region(s)

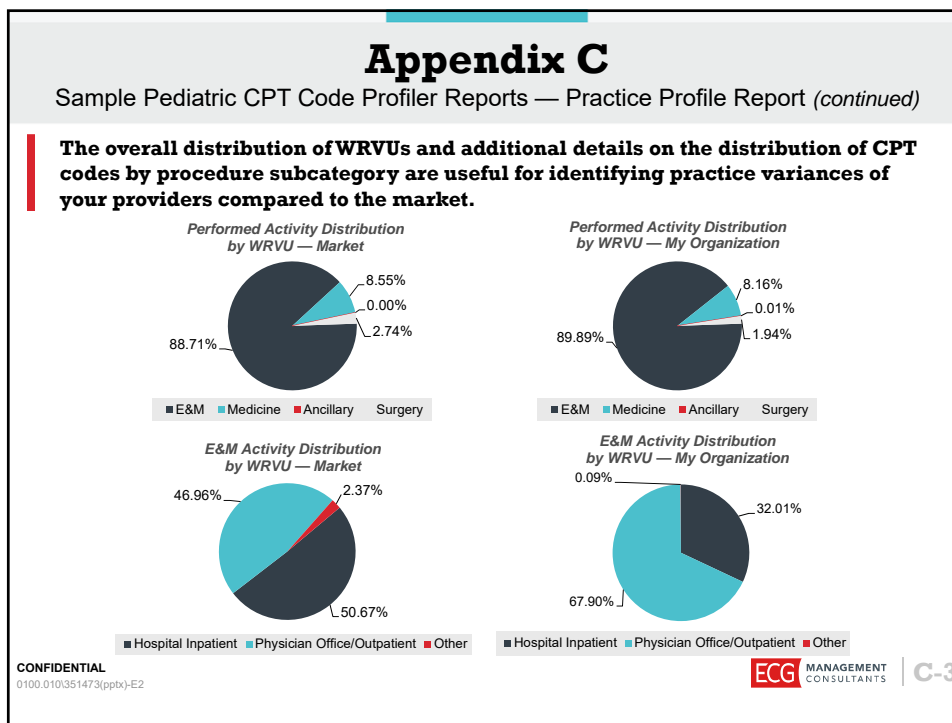

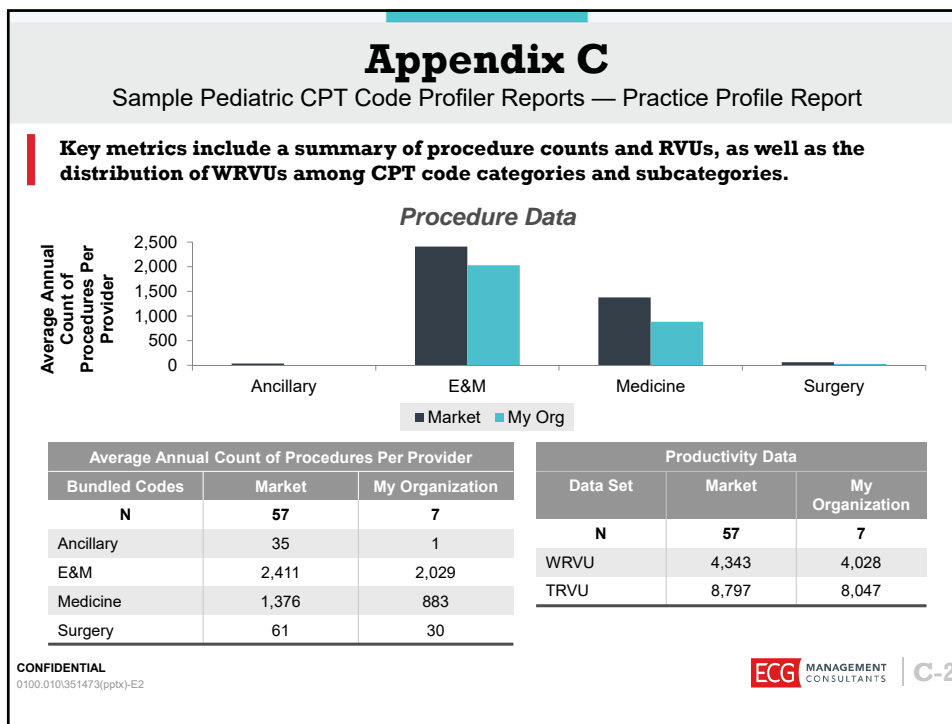

PROVIDER-LEVEL REPORT CRITERIA

- » **Quartile** — Pulls the CPT activity of providers above the median or above the 75th percentile for WRVUs
- » **Experience** — Selects data for providers who are new, providers who are established, or all providers
- » **Clinical FTE** — Selects providers within a specific clinical FTE range
- » **Inpatient/Outpatient Responsibilities** — Isolates the CPT activity of providers working in the inpatient environment, outpatient environment, or both environments
- » **Medical Home** — Selects providers who are participating in a medical home
- » **State** — Limits data to providers who are practicing within a specific state(s)
- » **Payor** — Pulls the CPT code data for codes billed to Medicare or non-Medicare payors
- » **Procedure Category** — Isolates the CPT activity by E&M, ancillary, medicine, and surgery
- » **Procedure Subcategory** — Isolates the CPT activity for 42 subcategories focused largely on body systems
- » **Grouped CPT Codes** — Isolates the CPT activity for specified ranges of codes
- » **Place of Service** — Isolates the CPT activity for one or more places of service (e.g., physician office)

Appendix C

Sample Pediatric CPT Code Profiler Reports — CPT Code Distribution Report

Distribution reports allow for the isolation of E&M frequency for Medicare and non-Medicare patient activity, place of service, and provider and organization demographics.

CPT Code Distribution — Average Per Provider by Percentage

Survey members that subscribe to the CPT Code Profiler are able to see the distribution reports by provider in addition to the market comparison.

Data Set	N	99211	99212	99213	99214	99215
Market	57	1%	3%	24%	48%	24%
