

2024 Advanced Practice Provider Compensation Survey

KEY FEATURES

- ✓ **Data collected for CY or FY 2023**
- ✓ **Benchmarks available at no charge to all who submit data**
- ✓ **Streamlined data collection templates**
- ✓ **Survey submissions accepted until March 29, 2024**
- ✓ **Key benchmarks available in July 2024**

ECG's survey is the industry's most rigorous and accurate benchmarking resource for advanced practice provider compensation planning.

ECG offers market-leading data and information critical to provider compensation planning efforts across independent, integrated, and academic organizations. Our survey provides an in-depth review of advanced practice provider (APP) market trends, including nurse practitioner and physician assistant specialty-specific compensation, production, benefits, compensation plan design and incentives, recruiting efforts and signing bonuses, CPT code physician profiling, and numerous other key data points.

In order to help provider organizations adopt benchmarks that align with their provider compensation plan methodologies, in 2024, ECG will publish relative value unit (RVU) benchmarks calculated using the 2020, 2023, and 2024 Medicare Physician Fee Schedules.

Our 2023 survey included data for over 35,000 APPs practicing within more than 42 APP provider types, including specialty-specific data for over 150 nurse practitioner and physician assistant specialties.

MEMBER BENEFITS

Members of ECG's 2024 Advanced Practice Provider Compensation Survey receive exclusive access to reports and online benchmarking tools that provide in-depth analysis of state, regional, and national market trends, including:

- ECG's expert assessment of provider trends, issues, and opportunities related to compensation, production, benefits, recruiting, and more.
- Detailed compensation metrics by specialty, including clinical, nonclinical, base, and incentive compensation (such as clinical quality, patient satisfaction, and work RVUs).
- Production metrics by specialty, including net professional collections, work and total RVUs, and compensation-to-production ratios.
- Benefits information, including benefits expense by specialty, benefits as a percentage of compensation, retirement expense, retirement as a percentage of compensation, and continuing medical education expense.
- Additional metrics, such as primary care panel sizes, starting salaries, signing bonuses, and relocation allowances for new hires.

- ECGVault, our online data portal that contains current and historical survey data and benchmarks at the market, organization, and provider levels. ECGVault allows for robust organization and market trending of APP performance, custom reporting, and downloading of benchmarks and related materials. Members purchase an annual membership for access to ECGVault's Dynamic Reports, which entitles them to an unlimited number of users and 24/7 access to reports and data.

SURVEY METHODOLOGY

ECG's survey methodology uses clear, uniformly applied definitions and a structured data validation process to transform member responses into useful information. We calculate RVUs from CPT-level data and are thus able to eliminate the RVU data consistency issues that exist in other industry surveys. RVUs and compensation-to-RVU metrics will be calculated and published using the 2020, 2023, and 2024 Medicare Physician Fee Schedules. To ensure data accuracy, each provider's clinical and nonclinical full-time equivalents are defined in detail by ECG.

“We appreciate ECG's rigorous and thoughtful methodology to their compensation survey. The consistency with which they approach calculating work RVUs, for example, is most valuable and ensures confidence in the results. In addition, their online data portal, ECGVault, makes accessing their benchmarks easy and convenient, and we are able to customize the data set for the attributes that are important for us when we compare our providers' performance to the market.”

Dr. Harris A. Frankel

Senior Vice President and Chief Medical Officer
Nebraska Medicine, Omaha, Nebraska

WHO WE ARE

With knowledge and expertise built over the course of 50 years, ECG is a national consulting firm that is leading healthcare forward. ECG offers a broad range of strategic, financial, operational, and technology-related consulting services. ECG is an industry leader, offering specialized expertise to hospitals, health systems, medical groups, academic medical centers, children's hospitals, ambulatory surgery centers, investors, and payers/health plans. As an affiliated partner of Siemens Healthineers, ECG's subject matter experts have a proven track record of delivering results through pragmatic solutions.

ECG's annual provider performance surveys include the *Advanced Practice Provider Compensation Survey*, the *Physician and APP Compensation Survey*, the *Pediatric Subspecialty Physician and APP Compensation Survey*, and the *Faculty Compensation and Production Survey*.
